(*) Aquests autors poden no aparèixer al mapa o hi poden aparèixer amb un nombre de publicacions diferent al que reflecteix aquest llistat. Aquestes diferències responen a que les publicacions amb coautories superiors a 50 autors han estat excloses dels mapes ja que dificultaven enormement el processament propi de l'aplicació i a l'hora generaven una visualització gràfica molt poc entenedora.
