Guia 5 mètrica: mencions, referències

A continuació es detalla com buscar la mètrica **mencions rebudes per l'aportació** en les fonts indicades a la [Tabla 1. Lista de posibles métricas, fuentes y dimensiones para evidenciar el valor de cada aportación](#) (pàgs. 29-33).

Consulteu la [Guia ANECA CV narratiu](#) amb exemples per contextualitzar les mètriques.

1. Agregadors de mètriques alternatives (per exemple, PlumX, Altmetric)

Buscar la publicació a la base de dades que integri un agregador de mètriques alternatives. Per exemple a:

- [Scopus](#) i obtenint les mètriques de [PlumX](#)
- o a [Dimensions](#) o el portal [FUTUR](#) per localitzar les mètriques [Altmetric](#).
- [Scopus](#) - [PlumX](#)

The screenshot displays a Scopus article page for "Digital-Analog Quantum Simulation of Fermionic Models". The article is from Physical Review Applied, published in 2023, with DOI 10.1103/PhysRevApplied.19.064086. The authors listed are Céleri, Lucas C.; Huerfano, Daniel; Albarrán-Arriagada, Francisco; Solano, Enrique; Garcia De Andoin, Mikel; and 1 author. The article is associated with the QPequi Group at the Federal University of Goiás. The page shows various metrics: 8 citations (65th percentile), a field-weighted citation impact of 0.81, and a prominence percentile of 99.868 for the topic "Quantum Algorithms for Machine Learning Optimization". The PlumX metrics section is highlighted with a red box, showing 18 captures, 18 readers, and 18 citations. The Scopus metrics section is also highlighted with a red box, showing 8 citations (65th percentile) and a field-weighted citation impact of 0.81. The SciVal Topics section is also highlighted with a red box, showing the topic name and prominence percentile.

The screenshot shows the FUTUR website dashboard. At the top, there are circular icons for different categories: Persones (4760), Organització (360), Doctorat (48), Projectes (22265), Tesis (9326), **Publicacions (269435)** (highlighted with a red box), Accés obert (56852), Datasets (219), Propietat industrial (1687), and Spin-offs (92). Below this is a search bar with the text "Cercar Text to search" and a dropdown menu for "Publicacions". The main section is titled "Publicacions" and shows "1 a 25 de 932 resultats". It lists two publications: "Predicting EU orchard farmers' adoption intentions for pesticide-reducing innovations using an extended theory of planned behavior" and "A Grey-box temperature model for digital twins of building-integrated rooftop greenhouses". Each publication entry includes the authors, DOI, publication date, and a red box highlighting the "Altmetric score" (1 for the first article, 1 for the second). A sidebar on the right titled "Filtrar resultats" shows filters for "Tipus" (Article en revista indexada, Presentació treball a congrés, Tesi doctoral, Document científicotècnic, Capítol de llibre, Article en revista no indexada, Llibre).

The screenshot shows the Altmetric website details for the publication "Predicting EU orchard farmers' adoption intentions for pesticide-reducing innovations using an extended theory of planned behavior". The page includes a circular Altmetric score of 1, a "SUMMARY" tab, and a list of authors: Noah Larvoe, Muhammad Asyraf Che Mustapa, Felicidad de Herralde, and Zeki Kallias. It also shows the publication date (February 2026) and a link to "Login to access the Sentiment Analysis related to this output".

2. Fonts directes dels agents no acadèmics

Presentar mencions a documents normatius, informes polítics, working papers, patents, registres dels programaris, algorismes, entrevistes o notícies en mitjans de comunicació.

Possible contextualització: nombre de mencions rebudes per patents. La [Taula 1](#) (pàg. 30) no llista explícitament Derwent, però aquesta base de dades pot ser una font per trobar patents que han citat el vostre treball.

- [Derwent](#)

Fer una cerca a WoS per títol de l'article, entre “ ”, i clicar al nombre de citacions:

Mutations and deletions within the S8-S9 interdomain region abolish complementation of N- and C-terminal domains of Ca2+-activated K+ (BK) channels

Wood, LS and Vogeli, G

Nov 26 1997 | BIOCHEMICAL AND BIOPHYSICAL RESEARCH COMMUNICATIONS 240(3), pp.623-628

A full length alpha-subunit of the Ca2+-activated K+ (BK) channel with an inactivating mutation in the C-terminus can complement a functional C-terminal fragment. We analyzed deletions and amino acid changes within the S8-S9 interdomain region for their ability to allow complementation. Cys(612) and His(616) that are located in a region ... Show more

Les dades bibliogràfiques de cada patent es poden consultar a través de la base de dades Derwent clicant sobre el títol.

3. [Overton](#)

Overton és la col·lecció més gran del món de documents polítics, transcripcions parlamentàries, orientacions governamentals i investigacions de grups de reflexió amb més de 23 milions de textos de 193 països. Permet descobrir, analitzar i seguir com les idees acadèmiques se citen i s'utilitzen en informes governamentals, ONG, *think tanks* i organismes internacionals. S'utilitza per:

- Evidenciar l'impacte de la recerca en la política
- Crear informes i estudis d'impacte.
- Donar suport a estratègies de recerca, promocions acadèmiques i sol·licituds de finançament.
- Comprendre com es connecten les polítiques entre si i amb la recerca.

4. The Lens

Cercador acadèmic d'accés lliure que facilita l'accés a informació no indexada a Google o a bases de dades.

The screenshot shows the 'Scholar Search Results' page for the author 'Teresa Lenz'. The left sidebar lists filters like Date Range, Flags, and Author. The main area shows 'Scholarly Works (2,017)' and 'Works Cited by Patents (6)'. A red box highlights the 'Teresa Lenz' entry in the author list, and another red box highlights the 'Works Cited by Patents' tab. A tooltip explains that the number of scholarly works in the result set that are cited by patents is 6.

Possible contextualització: nombre de mencions rebudes per patents: beneficis i transcendència que ha generat fora del món acadèmic.

The screenshot shows a patent record for 'Heterogeneous system on a chip scheduler with learning agent'. The record includes details about the patent (US 11704933 B2), its status (Active), and its citation information (2 Citing Patents, 42 Citing Works, 28 References). A red box highlights the 'Patents' tab in the 'Additional Info' section. Another red box highlights the 'Legal Status: Active' field.

Important: La relació de mètriques, fonts i dimensions de l'ANECA per evidenciar el valor de cada aportació no és una llista tancada. Aquesta és una guia d'acord amb la informació de la [Tabla 1. Lista de posibles métricas, fuentes y dimensiones para evidenciar el valor de cada aportación](#) (pàgs. 29-33).
