What do you want to do?

- Find a list of journals about a certain topic sorted by impact factor?
- Search for the impact factor of a journal?
- Find journals that have published about your topic and see their impact factor?

A. Find a list of journals about a certain topic sorted by impact factor

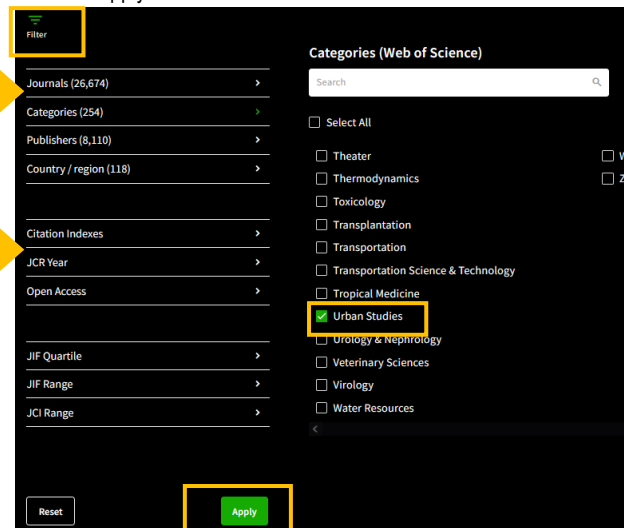

1. Select "Browse by journal".

2. Click on "Filter", then unfold "Categories" and select the subject category you prefer.

Mind you to select the year when you published the article or the latest available version, depending on the case.

Click on "Apply" at the bottom.

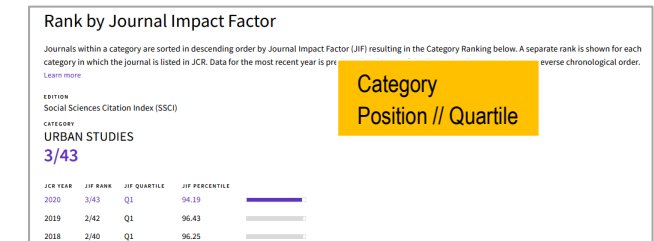

3. You will see the list of journals sorted by impact factor

4. To see more details, click on the journal title.

In the "Rank" section you will see its category, position and quartile.

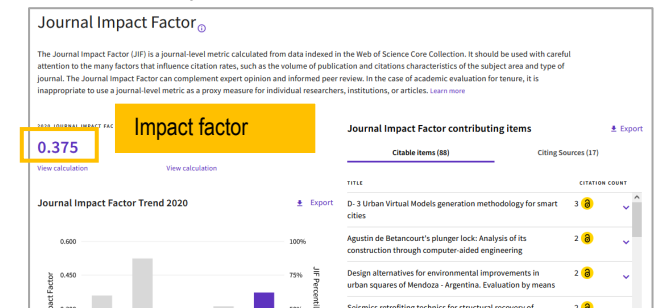

B. Search for the impact factor of a journal

1. Enter in Journal Citation Reports and write the title of the journal. Select the correct title from the autocomplete options.

2. You will see the journal information with its impact factor.

3. In the “Rank” section you will see its category, position and quartile.

Rank by Journal Impact Factor

Journals within a category are sorted in descending order by Journal Impact Factor (JIF) resulting in the Category Ranking below. A separate rank is shown for each category in which the journal is listed in JCR. Data for the most recent year is presented at the top of the list, with other years shown in reverse chronological order.
